

Deferred Option Plan Savings Account

What?

Addition Financial's Deferred Option Plan (DOP) savings account is the best way to save money for the summer or stretch your 10-month salary to cover the entire year. The funds are automatically deducted from your paycheck and deposited into a savings account that earns a special interest rate with a minimum daily balance of \$50.00.

Plus you can even deposit funds from another financial institution into this special savings account as long as you have payroll deduction set up.

Who?

All school district, college and university employees are eligible to participate. Orange County Public School employees must receive insurance benefits to be eligible to participate. The minimum deduction amount per pay period is \$20.

How?

Members and non-members must visit an Addition Financial branch to open a DOP savings account. Existing members who are receiving a DOP deduction can make changes to the amount through their employer payroll department.

How it Works:

Summer savings goal amount

Number of paychecks during school year

The payroll deduction amount needed from each paycheck

Transfer Date: July 1

Get Started

A Share Savings Account must first be opened to establish membership with Addition Financial.

- ✓ Open online at AdditionFi.com
